

Herewith JEAN MÜLLER confirms that all products sold by JEAN MÜLLER comply with the directive 2011/65/EU and the extensions (EU) 2015/863 according to today's state of knowledge. These products meet the current requirements of the RoHS directive for all 10 named materials.

To the best of our knowledge, all products supplied to you do not contain any substances in concentrations or in cross-boarder, notifiable compounds that restrict or prohibit their placing on the market.

JEAN MÜLLER currently applies the following valid exceptions:

- 6(a) Lead as an alloying element in steel for machining purposes and in galvanized steel containing up to 0.35% lead by weight
- 6(b) Lead as an alloying element in aluminium containing up to 0.4% lead by weight
- 6(c) Copper alloy containing up to 4% lead by weight
- 7(a) Lead in high melting temperature type solders (i.e. lead-based alloys containing 85% by weight or more lead)
- 7(c)-I Electrical and electronic components containing lead in a glass or ceramic other than dielectric ceramic in capacitors, e.g. piezoelectronic devices, or in a glass or ceramic matrix compound
- 7(c)-II Lead in dielectric ceramic in capacitors for a rated voltage of 125 V AC or 250 V DC or higher

All information on our products is given to the best of our knowledge and belief. They correspond to the current state of the art. We work closely together with our suppliers and continuously check the products within the framework of quality and environmentally relevant random samples.
